CONSULTANTS FOR THE TOWN ARE NOT ALLOWED TO HAVE INTERESTS IN THE TOWN!

There is a special meeting held by Council on February 16th, 1966, for the purpose of reviewing the town's existing services. It was noted by Council that a policy be formulated by the Mayor, in consultation with the staff, to be sure that the consultants employed by the town have no conflict of interests in the Town of St. Albert. The meeting for the week of March 4th, 1966, was a conflict review. This policy reads:

shall be brought to the March 4th, special meeting."

This motion was carried unanimously.

In connection with the Motion Committee Wheeler moved "That the Secretary - Treasurer instruct the Town's Consulting Engineers, Kalkin & Newby Ltd., to suspend all further work that they are doing on behalf of the Town of St. Albert for which the town has given authorization, with the following exceptions: Bridges 10 and 14 - Bridge No. 2 - Stormwater Stage 2 - Sewerage Stage 2."

In the context of financial planning and budget control, Kalkin & Newby Ltd., are required to supply, stated by projects, the amount being received by the town, whether approved or not. This authorization must have the proper authorization by the work charged, in receipt of the above, these projects and amounts will be reviewed by Council and further instructions issued regarding the completion of work and the assignment of additional projects. In the water treatment."

This motion was also carried.

ST. ALBERT RODEN 105

Council was advised that representatives of the Kinsmen Club wished to discuss this matter with the Finance Committee, however, they had inadvertently not been invited to attend the last Committee meeting. It was decided that representatives of the Kinsmen Club be invited to a meeting of Council to discuss the matter of Roden 105, EXEMPTION OF CATHOLIC AND UNITED CHURCH SITES.

Council was advised that the United and Catholic Church sites were exempted from taxation in accordance with the Assessment Act, but that this had not been done by by-law as required.

It was decided that By-law No. 8/66, being a by-law to exempt from taxation the Catholic and United Church sites, be read for a first time.

By-law No. 8/66 is to be read for a second time. It was decided by unanimous Council of all present, By-law No. 8/66 be read for a third and final time.

teacher in gaining greater insight into the needs of the child. Great interest was evident in the actual work of the children which was displayed on each pupil's desk.

The large turn-out of parents is very gratifying as an indication of their deep interest in the welfare of their children. It should be pointed out, however, that there is no necessity to wait until Parent's Night to discuss important matters which may arise from time to time. The Principals and Teachers always welcome visits from parents whenever problems arise.

At the conclusion of each evening, lunch was served in the Home Economics room.

From Our Readers

Dear Sir:

As an interested citizen, I attended the meeting Thursday, March 10th, at the Methodist Parish Hall, at the invitation of our M.I.A. Mr. Keith Everett, which was devoted to all through the St. Albert Centre, the schools and churches.

The first speaker was the Hon. L. C. Mahood, who informed us of the Patterson Commission report on adoption and the way in which their recommendations had been written into the Act. During the question period which followed, there were a great many questions and opinions on the religious aspect. I was very disturbed however, following the period to learn that Mr. Everett wished a vote to be taken, — I would like to know whether his constituents were for or against this Act as it stands now. Mr. Everett was asked if he thought there was a fair representation of all constituents present, as a small number from St. Albert which has the largest population. I think constituents had attended under the

impression that this was to be an informative N.O.W. political meeting, and had no idea a vote was to be taken. The Hon. L. C. Mahood appeared to be taken aback by the proceedings and he stated he had no previous knowledge a vote was to be taken. This meeting lasted in quite an unpleasant note, as there were a large number present who had made it quite clear previously that they were against the Act as it presently stands and would have voted against it, while I didn't actually know those present I would venture to say around 100 were present. If a vote had been taken and the majority were against this Act would Mr. Everett consider that he would be representing all of his constituents by postponing the decision of his constituents meeting?

I am personally sure that if we began to represent us again about there for another meeting, we will have to do much better than this.

Sincerely,
Claude Vetter

A good example of the effects of the Malthusian trap can be seen in the 19th-century world. In the 18th century, the world population was about 600 million. By the 19th century, it had grown to about 1 billion. This growth was due to the fact that the world was still in the Malthusian trap. The world population was growing, but the world was not growing fast enough to escape the trap. The world was still in the Malthusian trap, and the world population was still growing.

A year after the proposal from the first award, Merriam-Webster's 1997 *Top Words* is a first in that it was submitted to the editors and applied to listed by Merriam-Webster as of this study, the entire community is on a new system that is more flexible, as a result.

It is important to remember that the United States is not the only country to apply the concept of a letter of appreciation for official courtesies and displays of hospitality. This is evident:

The M_{bol} was calculated from the observed flux density and distance using the equation $M_{\text{bol}} = 2.5 \log(F_{\text{bol}}/d^2)$, where F_{bol} is the bolometric flux density in $\text{erg cm}^{-2} \text{s}^{-1}$ and d is the distance in parsecs. The M_{bol} was then converted to M_{bol} in $M_{\odot}$ using the equation $M_{\text{bol}} = 10^{(M_{\text{bol}} - 4.75)/2.5}$, where M_{bol} is the bolometric magnitude in $M_{\odot}$ and M_{bol} is the bolometric magnitude in $M_{\odot}$. ST. ALBERT EVANGELICAL LUTHERAN CHURCH

Rev. Raymond Olson, former pastor of Zion Lutheran Church of Saskatoon, has been arrived and began his work as mission developer for the Evangelical Lutheran Church of Canada in St. Albert.

A meeting of interested families was held Saturday, March 12 at the home of Mr. & Mrs. William Yost, and a goodly number of couples were met, also Pastors N. D. Halferman of Messiah Lutheran and P. M. Jorgensen of Mount Zion Lutheran.

The new congregation will be known as "The St. Albert Evangelical Lutheran Church", and for the time being will be meeting in one of the facilities available in St. Albert. Watch for further announcements as to location and time. The first service will be held on Easter Sunday, April 10, and Sunday School the following Sunday, April 17th. We stand for a very Evangelical approach, seeking to do all possible for the individual and the home.

Through the Canadian Lutheran Council, the major Lutheran bodies of Canada carry on a co-operative work in Home Missions. Regional Commissions, made up of the various pastors of these bodies, are set up in various cities to study the potential of new areas in Canada, and bringing the Gospel of Jesus Christ to people everywhere.

The Evangelical Lutheran Church of Canada applied for, and was granted the permission to begin work in St. Albert, and has held pre-emption on the St. Albert area since 1958, purchasing a site for the new church on Glenview Crescent and 11th Avenue Road, just across from the City Hall, in 1964, and a parsonage on 41 Glenview Crescent in 1965. The anticipated cost will be slightly more than \$100,000. The contract has been let to the Ed Hoffman Construction for the erection of the new Church, designed by the firm of Deans & Sheda Architects & Mills of Edmonton, to be completed early in August.

A general meeting of all interested will be held at Mr. & Mrs. Armand Lombardi, 24 Grande Ave., on Sunday evening, March 20, at 7:00 p.m. You are most cordially welcome.

This Sunday Banquet For All Hercules Soccer Pee Wees

This Sunday, March 18th, at 1:00 p.m. in the Club House at Glenhill Ave., the Hercules Soccer Pee Wees will host a banquet to celebrate their victory in the 1965 Stanley Matthews

Cup Tournament. All parents are invited to attend this banquet. There will be no charge. For further information please phone Mrs. Carmine DeLora - 389-7052.

The \$12,000 Expenditure

Don't misunderstand the \$12,000 expenditure out of our Recreation Budget for Hockey in St. Albert.

This has only to do with the maintenance of our hockey rink(s). Not one cent of this money ever went to any hockey player or coach. As a matter of fact our rink and board room rents are in constant financial trouble as the financial support for the team is despicable.

We should realize that our coaches are giving so much of their time to provide your boys with so many pleasant hours on the ice.

Outrigger our hockey rink(s) not only with your enthusiastic support but also once with an open purse.
